## Weekly Picks From the Band

### Book of the Week

*Dune*, a 1965 Sci-Fi novel by Frank Herbert, tells the sweeping tale of a desert planet called Arrakis, the focus of an intricate power struggle in a byzantine interstellar empire. Arrakis is the sole source of Melange, the "spice of spices." Melange is necessary for interstellar travel and grants psychic powers and longevity, so whoever controls it wields great influence.

### Movie of the Week

*Brazil*, directed by Terry Gilliam, centers on Sam Lowry, a young man trying to find a woman who appears in his dreams while he is working in a mind-numbing job and living a life in a small apartment, set in a dystopian world in which there is an over-reliance on poorly maintained (and rather whimsical) machines.

### Album of the Week

#### *U2 - The Joshua Tree*

The fifth studio album by rock band U2. Released 9 March 1987 on Island Records, it was produced by Brian Eno and Daniel Lanois. The album is influenced by Irish and American roots music and is derived from the band's "romance with America". Written

and recorded in Dublin in 1986.
